

How to get reviews using **iPhones** (*Make sure phone is unlocked and camera is off).

<ol style="list-style-type: none">1) Always place Our Review Cards to the back of your customers phone, close to the camera. That is where the NFC reader is positioned (See <i>figure 1 on the right</i>).2) Hold it for no longer than 2 seconds. Note: you may need to move it back and forth until it detects the NFC chip in Our Review Cards.3) If the customer has a thick phone case, it may block the signal and will not work. Kindly ask the customer to briefly remove their phone case.	 <p>The diagram shows the back of an iPhone with the Apple logo in the center. A dashed rectangular box is drawn around the camera module in the top-left corner, indicating the NFC reader's position.</p>
